Online / Virtual Learning Guidelines Grades Pre-K to Grade 12

Guidelines for the best Virtual Learning Environment:

1. It is recommended for students to have a quiet and noise free fixed workstation to ensure uninterrupted virtual learning.
2. Before virtual/online lessons begin, students must have their required books, notebooks, and stationery items with them and organize them according to their schedule.
3. Please check the functionality of all digital equipment, including internet, sound interfaces and webcam well before the commencement of regular virtual lessons.
4. Attendance is vital! Students must log-in to their classes at the beginning of the lesson and must remain online until the end of their virtual day.
5. Students must use the Username and Password given to them in order to use the School's Virtual Learning Management Platform called Emitsol for all subjects. Students will also be given a Username and Password to enter Pearson Savvas Realize where they can access all their resources related to English, Math and Science.

6. In order to acquire maximum level of concentration for their lessons, students must keep their microphones muted all the time, unless the teacher requires them to speak and collaborate with their classmates.
7. Students should follow their Weekly Agenda as posted on the school website from the second week.
8. Eating during the lessons are not allowed.
Students may have a water bottle nearby.
9. There shouldn't be any other distractions in the background like the TV or video games. Virtual classes should be taken seriously, in the same light as regular classes.
10. Students are not required to wear their school uniform during online, however appropriate clothing is required.
11. Please ensure that your child is well-rested and absolutely rejuvenated to take the virtual classes with full concentration.

Note: We will continue to communicate through our school website and social media platforms to keep parents posted about the latest developments and information regarding online access to resources in order to ensure a smooth running over the next 7 weeks, inshallah!

Wishing all our students well over this period.
Stay home and safe!
